## SECTION 4. FIRST-AID MEASURES

<b>Inhalation</b>	If breathed in, move person into fresh air. If concerned, seek medical attention.
<b>Skin Contact</b>	Rinse with plenty of water. If concerned, seek medical attention.
<b>Eye Contact</b>	Rinse with plenty of water for at least 15 minutes. Remove contact lenses if easily possible. If irritation persists, get medical attention.
<b>Ingestion</b>	Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. If large amounts are ingested, get medical attention immediately.

<b>Specific Hazards Arising from the Product</b>	<i>Not applicable.</i>
<b>Special Protective Equipment and Precautions for Fire-Fighters</b>	Firefighters should wear proper protective equipment and self-contained breathing apparatus with full face piece.

## SECTION 6. ACCIDENTAL RELEASE MEASURES

<b>Personal Precautions, Protective Equipment, and Emergency Procedures</b>	Implement spill control plan. All persons dealing with the clean-up should be trained and wear the appropriate personal protective equipment. Do not touch spilled product. Ensure adequate ventilation. Keep all other personnel upwind and away from the spill/release. Restrict access to area until completion of clean-up. Refer to Section 8, EXPOSURE CONTROLS AND PERSONAL PROTECTION, for additional information on acceptable personal protective equipment.
<b>Methods for Containment and Cleaning Up</b>	Ensure spilled product does not enter drains, sewers, waterways, or confined spaces. If necessary, dike well ahead of the spill to prevent runoff into drains, sewers, or any natural waterway or drinking supply. Ventilate area of release. Contain and absorb spilled liquid with non-combustible, inert absorbent material (e.g. sand), then place absorbent material into an appropriate container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

## SECTION 7. HANDLING AND STORAGE

<b>Precautions for Safe Handling</b>	Use with adequate ventilation. Wear suitable protective equipment during handling. Avoid breathing mist or vapours. Avoid contact with skin, eyes and clothing. Wash thoroughly after handling. Keep containers closed when not in use.
<b>Conditions for Safe Storage</b>	Store in a cool, dry, well ventilated area, away from incompatibles. Inspect periodically for damage or leaks. Storage area should be clearly identified, clear of obstruction and accessible only to trained and authorized personnel. Keep in original container.
