

GreenClean®

ACID CLEANER

DANGER – PELIGRO

KEEP OUT OF REACH OF CHILDREN • READ LABEL BEFORE USE

PRECAUTIONARY STATEMENT: Do not handle until all safety precautions have been read and understood. Keep in original container. Do not breathe spray. Do not get in eyes, on skin or on clothing. Wash hands, forearms, and face thoroughly after handling. Avoid release to the environment. Wear protective gloves, clothing, eye protection, and face protection. Wash contaminated clothing before reuse. Absorb spillage to prevent material-damage. Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation.

FIRST AID

IF SWALLOWED: Rinse mouth. Do not induce vomiting. **IF ON SKIN OR HAIR:** Immediately take off all contaminated clothing. Rinse skin with water. **IF INHALED:** Remove person to fresh air and keep comfortable for breathing. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If exposed or concerned, get medical advice/attention. If you feel unwell, immediately call a poison control center or doctor.

For specific treatments see FIRST AID section on SDS.

GreenClean Acid Cleaner is a blend of mineral acid with wetting agents that quickly works on organic deposits, calcium and other hard water mineral deposits, alkaline/caustic buildup, and rust.

USES: Use on equipment in all types of food production facilities, dairy, beverage, poultry, agricultural, horticultural and other general industries wherever scale, oxide, or lime build up is a problem. Use to remove whitewash from greenhouse glass. Can be used for neutralization of alkalinity in hoses, lines, and cleaners. May be sprayed, circulated, or used in soak tanks. **Not recommended for use on soft metals and painted surfaces.**

SURFACE CLEANING: Dilute 3–8 fl. oz. of GreenClean Acid Cleaner per gallon of clean water. Allow to dwell for 10-15 minutes followed with a clean water rinse using a pressure washer or hose sprayer. Higher rates are recommended for heavily soiled surfaces. After rinsing, use SaniDate® 5.0 according to label directions to disinfect hard surfaces and equipment.

IRRIGATION LINE CLEANING: Apply between crops or when crops are not present. Inject GreenClean Acid Cleaner at 1:50 until irrigations lines are at or near capacity. Allow to sit for 2-3 hours. Flush lines with clean water until pH returns to neutral. Use GreenClean Acid Cleaner prior to or in conjunction with SaniDate® 5.0 as part of BioSafe Systems' complete line cleaning program.

Hazard Statements:

- H290 - May be corrosive to metals
- H314 - Causes severe skin burns and eye damage
- H318 - Causes serious eye damage
- H350 - May cause cancer (Inhalation)
- H373 - May cause damage to organs through prolonged or repeated exposure
- H402 - Harmful to aquatic life

Use on stainless steel equipment, irrigation lines, greenhouse surfaces, conveyors, vats, and piping systems

COMMERCIAL USE ONLY

CONTAINS:

Sulfuric Acid.....	35-40%
Proprietary Surfactant Blend.....	60-65%
