Safety Data Sheet

Advanced Nutrients OG Organics Iguana Juice Grow

Section 1. Identification

GHS product identifier	:	Advanced Nutrients OG Organics Iguana Juice Grow
Other means of	:	Product Code: 5223
identification		Formula Code: 003E-OIM
Recommended use of the	:	A plant nutrient used to obtain faster growth and larger
chemical and restriction on		yields in all kinds of growing media. Not to be used as food or
use		feed in any forms.
Supplier/Manufacturer's	:	Advanced Nutrients U.S. LLC
details		8687 Melrose Ave, Suite G320,
		West Hollywood, CA
		90069
		Tel: (877) 604-8637
		Email: info@advancednutrients.com
		www.advancednutrients.com
Emergency Phone number	:	Transportation Emergency Number –
		CHEMTREC 1-800-424-9300 U.S.A, Canada, International

Section 2. Hazard Identification

GHS classification of the	:	Neither the mixture nor its major constituents are listed in
substance/mixture		(a) the CLP/GHS database (Table 3.1 and 3.2 of Annex VI to
		CLP) or Regulation (EC) No 1272/2008 of the European
		Parliament & of the Council, and (b) OSHA Laws &
		Regulations (29 CFR - 1910 Subpart Z: Table Z-1 to Z-3) as
		hazardous materials.
GHS label elements		
Pictogram symbol	:	Not applicable.
Signal word	:	Not applicable.
Hazard statement	:	Not hazardous.
Precautionary statement		
General	:	Read label before use. Keep out of reach of children.
Prevention	:	Wash hands thoroughly after handling.
Response	:	If skin or eye irritation occurs get medical advice/attention.
		If in eyes: rinse cautiously with water for several minutes.
Storage	:	Store in cool and dry place.
Disposal	:	Dispose of contents and container in accordance with local,
		regional, national and international regulations.

Other hazards (not covered : None known. by the GHS)

Section 3. Composition/Information on Ingredients

Substance/Mixture	: Mixture.
Chemical identity	: Not applicable.
Common name/synonym	: Not available.
CAS number and other	: Not applicable.
unique identifiers	
Impurities and stabilizing	: Not applicable.
additives	

Ingredient name	CAS number	% (w/w)	Classification according to OSHA Laws & EU Regulations
Magnesium Sulfate	7487-88-9	5-10	Not classified as hazardous.
Potassium Sulfate	7778-80-5	5-10	Not classified as hazardous.

The chemical identity of the remaining ingredients and their exact proportions used in the mixture are a proprietary trade secret (protected by the Confidential Business Information – CBI) and, within the current knowledge of the manufacturer and in the concentration applicable, they are not hazardous to health or the environment.

Section 4. First-aid Measures

Description of necessary mea	Description of necessary measures			
Self-protection of first- aiders	:	No special protection is required.		
General information	:	Remove contaminated clothing immediately. In case of accident or unwellness, seek medical attention immediately.		
Inhalation	:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.		
Skin contact	:	Flush contaminated skin with plenty of water. Get medical attention if symptoms occur.		
Eye contact	:	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 20 minutes. Get medical attention if irritation occurs.		
Ingestion	:	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.		

Most important symptoms/effects, acute and delayed:		
Inhalation	:	No known significant effects or critical hazards.
Skin contact	:	No known significant effects or critical hazards.
Eye contact	:	If in eyes, it causes eye irritation.
Ingestion	:	If swallowed, it irritates mouth, throat and stomach.
Indication of immediate me	dical	attention and special treatment needed:
Notes to physician	:	Treat symptomatically.
Specific treatments	:	No specific treatment.
See also toxicological information (Section 11).		

Section 5. Fire-fighting Methods

Suitable extinguishing media	:	Any media suitable for extinguishing a surrounding fire.
Unsuitable extinguishing media	:	Not known.
Specific hazards arising from the chemical	:	No specific fire or explosion hazard.
Special protective equipment for fire-fighters	:	Firefighters may enter the area if a self-contained breathing apparatus (SCBA) and a full face piece is worn.
Special protective precautions for fire-fighters	:	No special protection is required.

Section 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures			
For non-emergency personnel	:	Put on appropriate personal protective equipment.	
For emergency personnel	:	If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non- emergency personnel".	
Environmental precautions	:	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).	
Methods and materials for co	onta	inment and clean up	
Small spill	:	Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Do not absorb in sawdust or other combustible material. It may lead to a fire risk when it dries out. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate	

	waste disposal container. Dispose via a licensed waste
	disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area.
	Prevent entry into sewers, water courses, basements or
	confined areas. Wash spillages into an effluent treatment
	plant or proceed as follows. Contain and collect spillage with
	non-combustible, absorbent material e.g. sand, earth,
	vermiculite or diatomaceous earth and place in container for
	disposal according to local regulations (see Section 13).
	Dispose of via a licensed waste disposal contractor. Note: see
	Section 1 for emergency contact information and Section 13
	for waste disposal.

Section 7. Handling and Storage

Precautions for safe handling		
Advice on general hygiene	:	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. See also Section 8 for additional information on hygiene measures.
Protective measures	:	Put on appropriate personal protective equipment (see Section 8).
Conditions for safe storage and any incompatibilities	:	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Separate from reducing agents and combustible materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Section 8. Exposure Controls/Personal Protection

Control parameters		
Occupational exposure limits Biological limit values	:	Not applicable according to OSHA's mandatory PELs in the Z- Tables. None.
Appropriate engineering controls	:	No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Environmental exposure controls	:	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.
Individual protection measure	es	
Hygiene measures	:	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Ensure that eyewash stations and safety showers are close to the workstation location.
Personal Protective Equipment (PPE)	:	PPE should be used in conjunction with other control measures, including engineering controls, ventilation and isolation. See Section 5 (Fire-fighting measures) of the SDS for specific fire/chemical PPE advice.
Eye/face protection	:	Do not get in eyes. Wear chemical safety goggles and a face shield if splashing hazard exists.
Skin protection	:	Avoid skin contact. Wear gloves when handling the product directly.
Respiratory protection	:	Not required under normal conditions of use.
Thermal hazards	:	None.

Section 9. Physical and Chemical Properties

Appearance (physical state)	:	Liquid, dark and murky
Odor	:	Fish
	•	
Odor threshold	:	Not available
рН	:	4.04
Melting point/Freezing	:	Not available
point		
Initial boiling point and	:	100°C (212°F)
boiling range		
Flash point	:	Not available
Evaporation rate	:	Not available
Flammability (solid, gas)	:	Not available
Upper/lower flammability	:	Not available
or explosive limits		
Vapor pressure	:	Not available
Vapor density	:	Not available
Relative density	:	1.226 g/ml
Solubility (ies)	:	Complete in water
Partition coefficient: n-	:	Not available

octanol/water		
Auto-ignition temperature	:	Not available
Decomposition temperature	:	Not available
Viscosity	:	Not available

Section 10. Stability and Reactivity

Reactivity	:	Not available.
Chemical stability	:	Normally stable.
Possibility of hazardous reactions	:	Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	:	Freezing temperatures.
Incompatible materials	:	Reducing materials, organic materials, metals and acids.
Hazardous decomposition products	:	None under normal conditions of storage and use.

Section 11. Toxicological Information

Acute toxicity				
Ingredient	Toxicity	Species	Dose*	Remark
Potassium	Oral LD50	Rat	2000 mg/kg bw	Not harmful
Sulfate	Inhalation LCO	Rat	3.6 mg/m ³ air - 4hrs	Not harmful
	Dermal LD50	Rat	2000 mg/kg bw	Not harmful
Magnesium	Oral LD50	Rat	>2000 mg/kg bw	Not harmful
Sulfate	Inhalation LCO	-	-	No data available
	Dermal LD50	Rat	>2000 mg/kg bw	Not harmful
*- Obtained fro	om ECHA (Update	d October 1	L2, 2018)	
Skin corrosion/ir	ritation :	No data	available.	
Serious eye	:	No data	available.	
damage/irritatio	n			
Respiratory or sk	cin :	No data	available.	
sensitization	sensitization			
Germ cell mutag	enicity :	No data	available.	
Carcinogenicity	:	No data	available.	
Reproductive to	xicity :	No data	available.	
STOT-single expo	osure :	No data	available.	
STOT-repeated e	xposure :	No data	available.	
Aspiration hazar	d :	No data	available.	
The Likely routes	s of exposure, h	ealth effec	ts and Symptoms rela	ated to the physical, chemical
and toxicological	l characteristics			
Eye contact	:	No know	n significant effects o	r critical hazards.
Inhalation	:	No know	n significant effects o	r critical hazards.
Skin contact	:	No know	n significant effects o	r critical hazards.

Ingestion

: No known significant effects or critical hazards.

Delayed and immediate effects and	also	chronic effects from short or long term exposure
Short-term exposure		
Potential immediate effects	:	No known significant effects or critical hazards.
Potential delayed effects	:	No known significant effects or critical hazards.
Long-term exposure		
Potential immediate effects	:	No known significant effects or critical hazards.
Potential delayed effects	:	No known significant effects or critical hazards.
Potential Chronic health effect	:	No known significant effects or critical hazards.
Numerical measures of toxicity		
Acute toxicity estimate		
Oral	:	There is no data available.
Inhalation of vapors	:	There is no data available.

Section 12. Ecological Information

Toxicity						
Ingredient name	Result		Species	Exposure	Reference	
Potassium Sulfate	Acute LC50 720 mg/l Fresh water		Aquatic invertebrate - Daphnia	48 hours	ECHA	
	Acute LC50 68 Fresh water	30 mg/l	Fish- Fathead minnows	96 hours	ECHA	
Magnesium	Acute LC50 68	30 mg/l	Fish- Fathead minnows	96 hours	ECHA	
Sulfate	Fresh water					
Persistence and : No data av degradability		vailable.				
Bioaccumulative potential : No data av		vailable.				
Mobility in soil	Mobility in soil : No data av					
Other adverse eff	ects :	No known	significant effect.			

Section 13. Disposal Considerations

Disposal of waste methods	:	Disposal of all waste must be done in accordance with municipal, provincial and federal regulations. Dispose of surplus and non-recyclable products via a licensed waste
		disposal contractor. No sewage disposal!!
Contaminated packaging	:	Empty containers should be recycled or disposed of through
		an approved waste management facility. Persons conducting

disposal, recycling or reclamation activities should follow the information in Section 8 of this SDS.

Section 14. Transport Information

Identification of ingredients according to UN Model Regulations				
UN number	This product is a mixture of ingredients which are not listed as			
UN proper shipping name	'Dangerous Goods' in Chapter 3.2 of UN Recommendations on			
Transport hazard class(es)	the Transport of Dangerous Goods and/or one or more			
Packing group	ingredients are included in the list but their mixture is exempted from the same Regulation based on the Articles 2.0.2.5 (C), 2.0.2.7 and 3.3.1 No. 208.			
Special precaution for user	Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.			
Transport in bulk	Not applicable (≤ 1000L-container).			

Environmental hazards

Ingredient's name	IMDG	UN	ADR	RID	ADN
Potassium Sulfate	No	No	No	No	No
Magnesium Sulfate	No	No	No	No	No

Section 15. Regulatory Information

Safety, health and environmental regulations	:	No	known	specific	national	an	d/or
specific for the product in question		regi	onal reg	ulations	applicable	to	this
		pro	duct (incl	uding its i	ingredients).
